

Zetland Primary School

Sports Vision Statement 2016-17

After consultation with Parents, Staff and pupils we have chosen 'Healthy bodies, Healthy minds, Healthy teams' to represent our vision for Physical Education at Zetland Primary.

Why have we chosen this statement?

Healthy bodies

This allows us to reflect our goal to ensure that children have access to high quality PE lessons and a range of after school sports in order to keep fit and active.

Healthy minds

As part of the Physical Education curriculum we aim to teach children the importance of having the right 'positive mental attitude' towards sport. We recognise that children need to develop a range of social and emotional skills in order to succeed at sport.

Healthy teams

We value the importance of team work and we would like all of our children to work well as part of a team and learn to support and encourage other teams when playing sports. We aim to participate in every inter school competition event within our School Sports Partnership and aim to reach the top five of the competition league each year.

Our vision statement also links with the 'Spirit of the Games' awards for - **Honesty, teamwork, determination, self-belief, passion and respect.** At our School Sports Partnership events a special award is given out at most competitions for the school that is consistently demonstrating these skills.

The Redcar and Eston School Sports Partnership support our school to deliver and provide high quality Physical Education and competitive events.
